

Company Profile

We are professionals of specialty gas production

Head Office

Creating a one-level higher future with specialty gases

We are a gas manufacturer specializing in specialty gases.

No other time in history have specialty gases been playing a more significant role as much as today.

For example, "Standard gases" are essential for atmospheric and exhaust gas measurements,

"High-purity gases" influence the manufacturing precision of key devices in the IT and medical sectors,

and "Semiconductor process gases" are indispensable for the higher-speed, higher-density, larger-capacity semiconductor devices.

Along with the progress of the times, increasingly sophisticated gases will be required, and higher-quality gases will evolve the future.

As the production department of the Taiyo Nippon Sanso Group developing globally, comprehensive gas business, we are committed to making ongoing efforts to create a one level higher future.

Corporate Overview

Trade name:	Taiyo Nippon Sanso JFP Corporation (JFP, in short)
Address:	3-3 Mizue-cho, Kawasaki-ku, Kawasaki-shi, Kanagawa 210-0866, Japan Phone: +81-44-288-4700 Fax: +81-44-288-4751
Establishment:	October 25, 2001
Capital:	100 million yen
Shareholder:	Taiyo Nippon Sanso Corporation (100%)
Main bank:	Mizuho Bank
No. of employees:	236
Locations:	<p>Head Office 3-3 Mizue-cho, Kawasaki-ku, Kawasaki-shi, Kanagawa 210-0866, Japan Phone: +81-44-288-4700 Fax: +81-44-288-4751</p> <p>Oyama Plant 498 Yokokurashinden, Oyama-shi, Tochigi 323-0819, Japan Phone: +81-285-27-3840 Fax: +81-285-27-7377</p> <p>Kawasaki Plant 3-3 Mizue-cho, Kawasaki-ku, Kawasaki-shi, Kanagawa 210-0866, Japan Phone: +81-44-288-4761 Fax: +81-44-276-1947</p> <p>Mie Plant 2500 Kashikimura, Iga-shi, Mie 518-1403, Japan Phone: +81-595-46-1316 Fax: +81-595-46-1774</p> <p>Kitakyushu Plant 2-3-1 Higashiminato, Kokurakita-ku, Kitakyushu-shi, Fukuoka 803-0802, Japan Phone: +81-93-571-8585 Fax: +81-93-571-8818</p>
Line of business:	Pure gases, Standard gases, Mixture gases, Semiconductor process gases, Rare gases All products are sold through our parent company, Taiyo Nippon Sanso Corporation.

Our Goals : To evolve specialty gases and to contribute to the advancement of worldwide industries

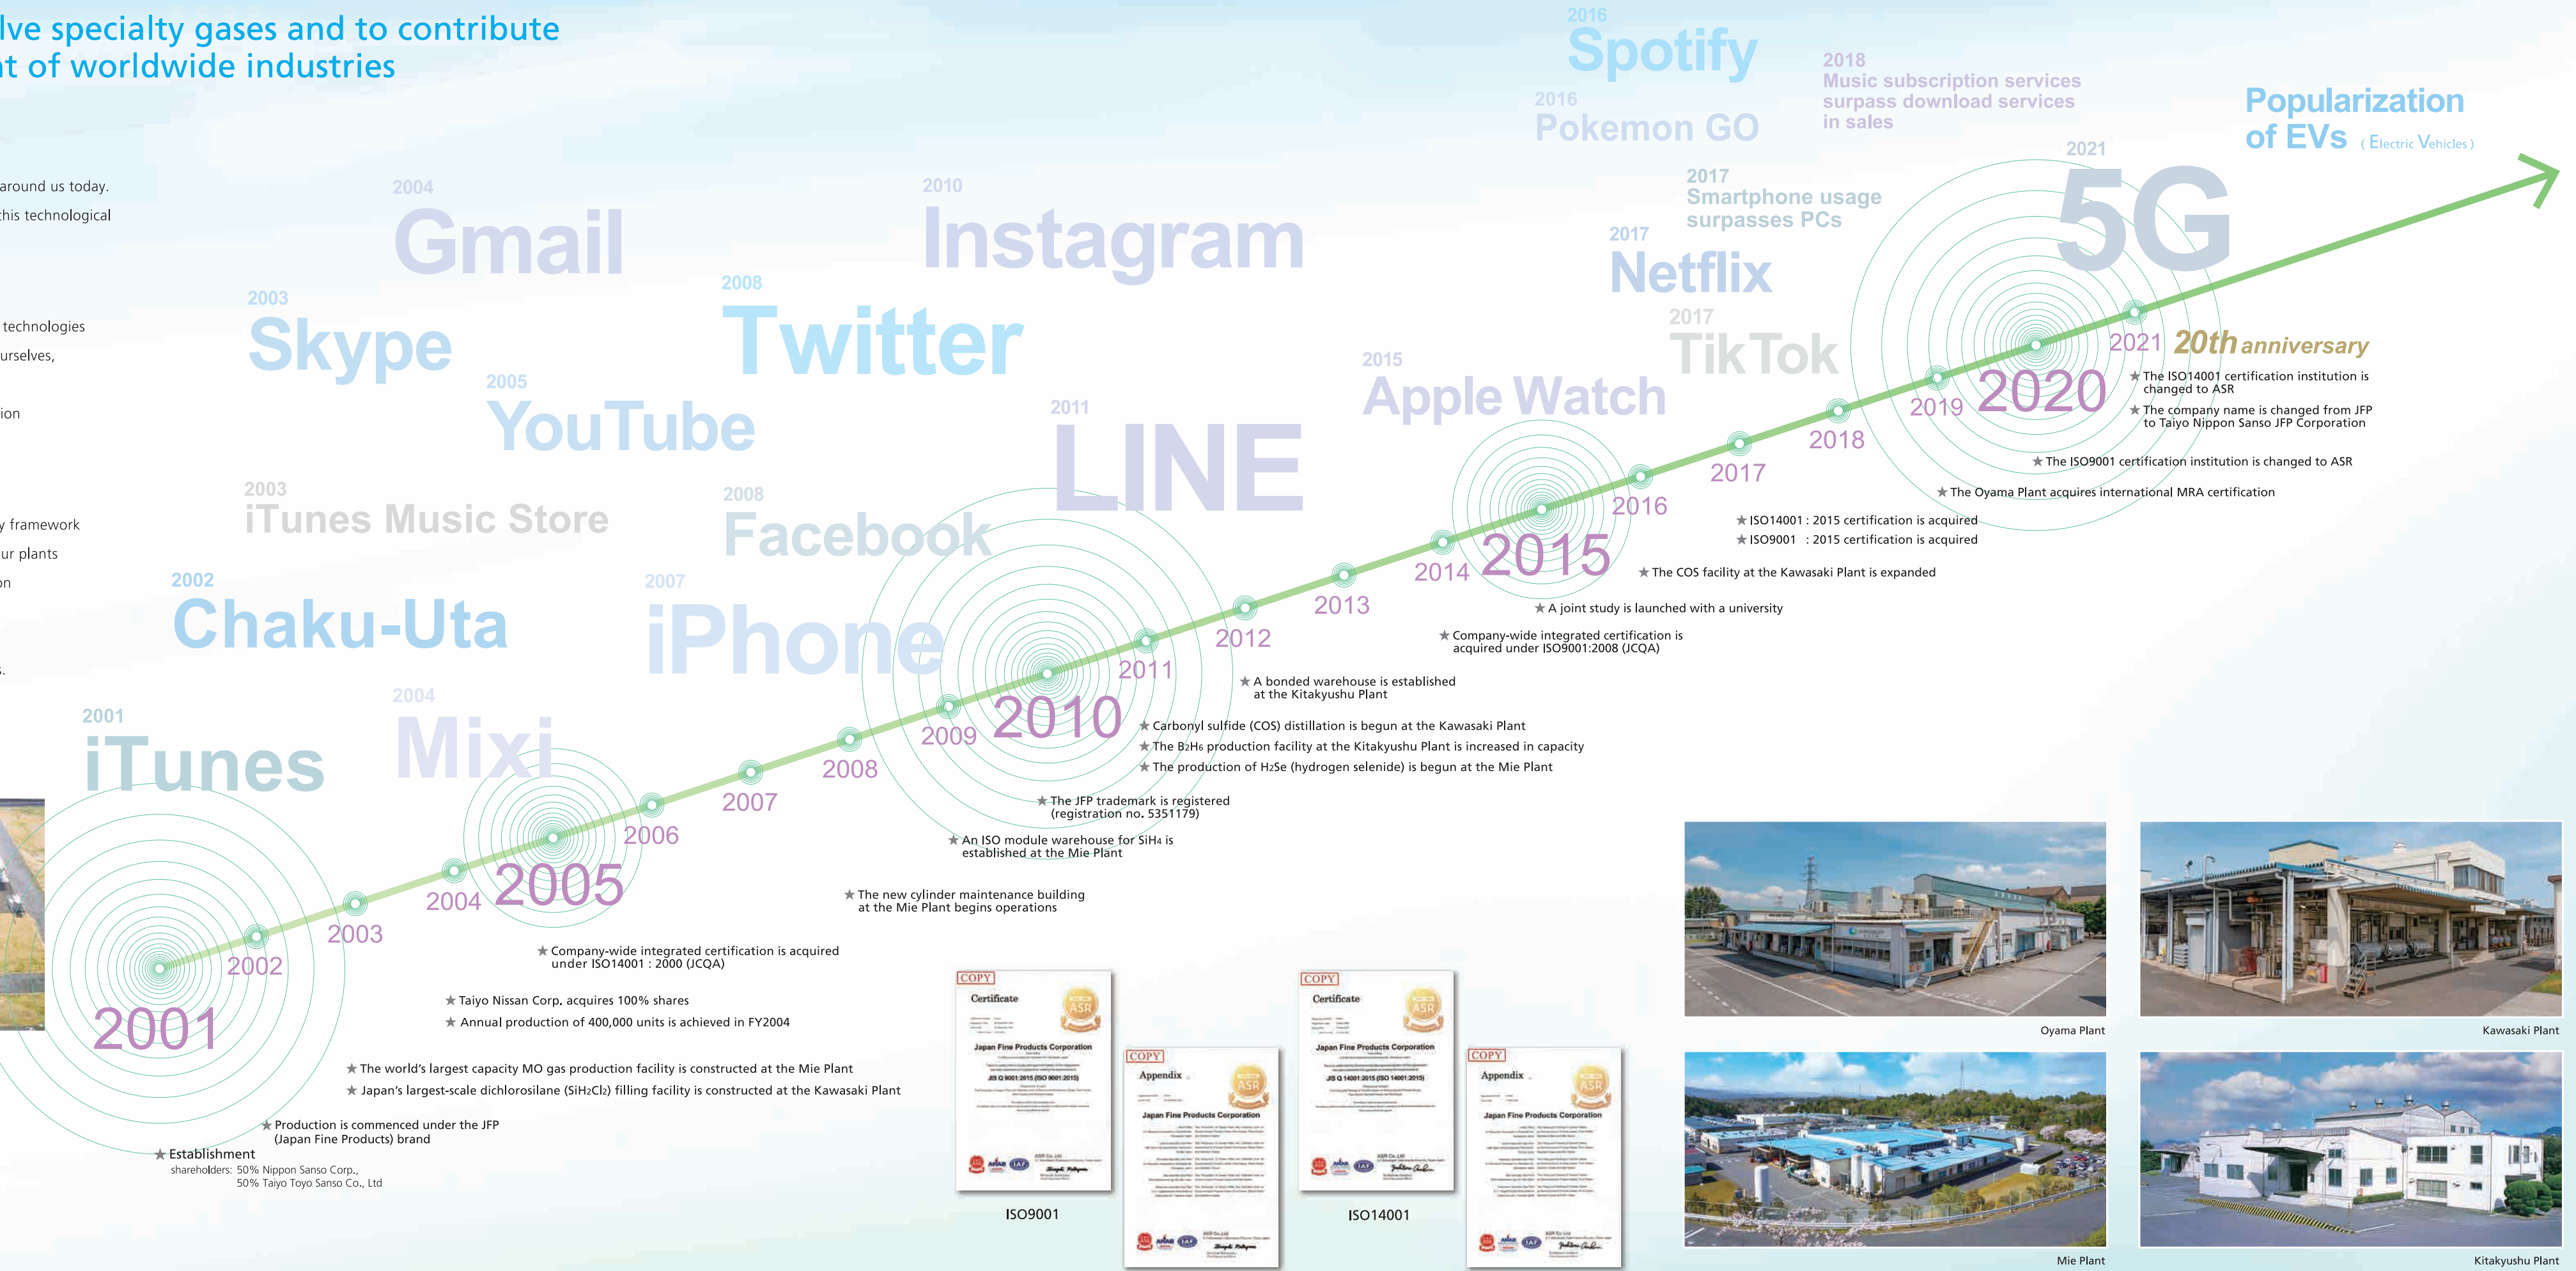

Technical innovation is creating a whirlwind around us today. As a professional gas company, we support this technological advancement by ensuring stable supplies of high-quality specialty gases.

We hone our production, filling and analysis technologies by imposing stringent quality standards on ourselves, and consistently produce gas products of the highest quality with meticulous attention to every detail, including our advanced cleaning technology inside cylinders.

Under an impeccable production and delivery framework that ensures seamless connection between our plants and distributors by closely sharing information on incoming and outgoing orders, we are committed to delivering high-quality specialty gases to our customers.
